

Grainger Learning Management System

Minimum System Requirements

OS:

- Windows 7 or higher, Mac OSX 10.9 (Mavericks) or higher, iOS (current Apple supported version)

Browser:

- Microsoft Edge (current version), Google Chrome (current version), and Firefox (current version). Safari and Internet Explorer are not supported on any platform (PC, tablet or mobile device).
- Pop-ups must be enabled in the browser for the graingerlms.icity.com domain.
- Cookies must be enabled for the graingerlms.icity.com domain.
- JavaScript must be enabled for the graingerlms.icity.com domain.
- A Flash plugin (current Adobe version) for the browser may be required for some content to display and function correctly.

Hardware:

- PC, tablet or mobile device able to support the required OS and Browsers
- Recommended minimum screen resolution for PC is 1280 x 800 with color depth of 256 or greater
- Speakers or headphones
- Note: Use of a PC or Laptop with adequate screen resolution is recommended for users who will be performing administrative tasks.

Network:

- Internet connection with 1 megabits per second (Mbps) download speed (2 Mbps or higher recommended)
- The graingerlms.icity.com domain may need to be whitelisted for the application to function correctly and to receive email notifications from the LMS; please consult with your IT department.
